

Outdoor Activity: Business Model Canvas — Real-World Business Analysis

Objective:

To understand how the **9 components of the Business Model Canvas (BMC)** work together in a real-world business.

Activity

Visit **any one business around you**—for example, a café, food outlet, stationery shop, gym, clothing store, or delivery service.

Observe the business and identify the **9 BMC components**:

Customer Segments → Value Proposition → Channels → Customer Relationships → Key Activities → Key Resources → Key Partners → Cost Structure → Revenue Streams

For each component, write **1–2 simple points** based on your observation.

Example

Business: Campus Café

BMC Component	Observation
Customer Segments	Students, faculty, and staff
Value Proposition	Quick and affordable food
Channels	Physical café, campus delivery
Customer Relationships	Direct interaction, feedback
Key Activities	Food preparation and serving
Key Resources	Staff, kitchen, equipment, ingredients
Key Partners	Food suppliers and delivery partners
Cost Structure	Ingredients, salaries, electricity, rent
Revenue Streams	Food and beverage sales

Submission

Take **2–3 photographs** of the business during your visit and create a **one-page BMC** based on your observations.

Final submission:

1 BMC + 2–3 photographs + short explanation
